PHOENIX - The Maricopa County Tabulation and Election Center is counting early ballots for the primary election Tuesday. Roughly 42 percent of mail-in ballots have been received.

If you still have one, make sure to turn it in at any polling location by Tuesday. An early ballot must be received by the county recorder's office, or a polling location, no later than 7 p.m. on August 28, 2012. Postmarks do not count.

Justice Department to monitor Maricopa County's primary election

Monday, Aug 27, 2012

By NATASHA KHAN
Cronkite News

PHOENIX - U.S. Justice Department monitors will be in Maricopa County to observe Tuesday's primary election.

The department said the monitors will ensure that the state complies with the Voting Rights Act of 1965, which makes sure changes to election laws don't have racist or discriminatory effects.

Maricopa County's recorder and a spokesman for the Arizona Secretary of State's Office said the Justice Department frequently sends federal monitors for Arizona elections and that the move doesn't concern them.

But Bruce Merrill, senior fellow at Arizona State University's Morrison Institute for Public Policy, said he suspects that the Justice Department's move is taking a stand against alleged racial profiling by Maricopa Sheriff Joe Arpaio's office.

"They are trying to make a statement about their concerns," Merrill said. "They are obviously not doing this everywhere."

Numerous lawsuits have been filed against Arpaio and the Maricopa County Sheriff's Office claiming racial profiling.

Matthew Roberts, communications director for the Arizona Secretary of State's Office, said it isn't unusual that the Justice Department would send in election monitors and that he expected that everything would go smoothly Tuesday.

US Justice Department to monitor Arizona elections

By The Associated Press

Published: August 27, 2012 at 10:30 am

All Arizona counties have to provide voting assistance in Spanish and many are required to assist in Native American languages, but a new federal regulation requiring assistance in Yuma has some counties stumped.

The U.S. Justice Department has announced that it will monitor primary elections in Arizona's Maricopa County.

The department said Monday that federal observers will be dispatched Tuesday to make sure that Maricopa County follows the federal Voting Rights Act of 1965. That law prohibits discrimination in the election process on the basis of race, color or membership in a minority language group.

Observers will watch and record activities during voting hours at polling locations.

Maricopa County officials, especially Sheriff Joe Arpaio, have come under fire for the treatment of Latino residents.

Also interesting to note that 482 people checked their polling location the DAY AFTER Election Day

A close-up photograph of the American flag, focusing on the blue field with white stars and the red and white stripes. The flag is draped, creating soft folds and shadows. A white rectangular box is overlaid on the bottom left portion of the image.

POLLING PLACES

EVs Dropped at the Polls

- There were more than 40,000 Early Ballots dropped at the polls:

Future?

- In this picture you can see the Insights that were not sent out on Election Day due to the consolidation of precincts.
- You can also see the beginning stacks of EVs dropped at the polls on Election Day.

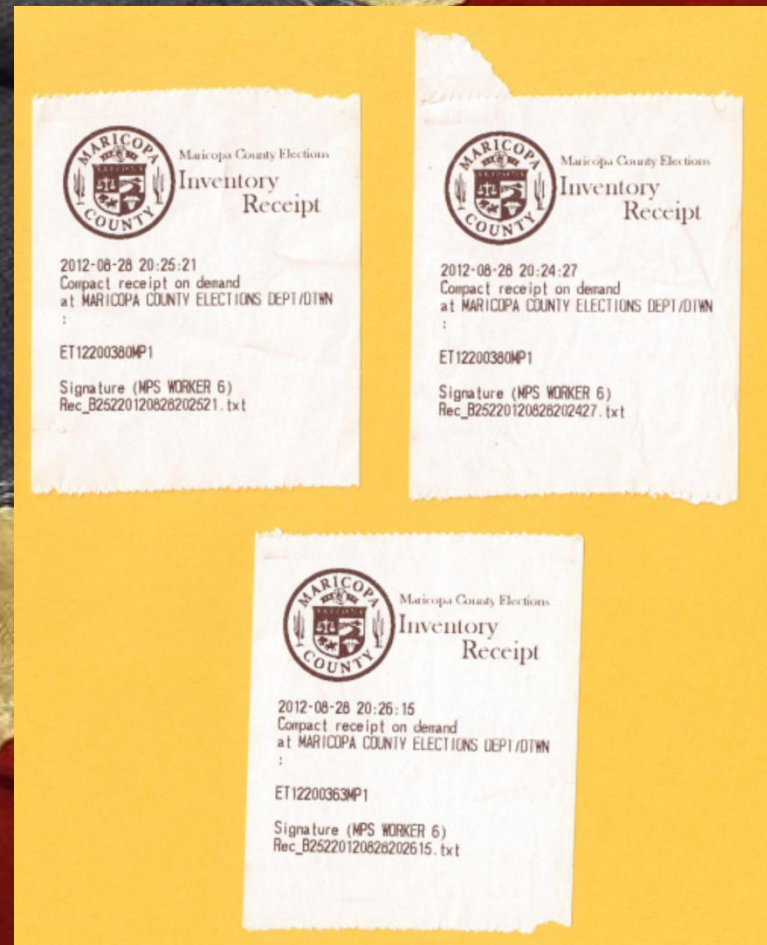

Receiving Sites & Results

- The boardworkers take the electronic version of the ballots cast (memory cartridges from the 2 machines used at the polling place) to sites located around the County.
- A second trip is made with the paper record of the votes cast: paper ballots and the printer off of the touchscreen as well as the blue EV box and the red Provisional box.

Receiving Sites & Results

- When dropping off the official election materials the boardworkers receive a receipt:

Receiving Site Trucks Roll in

- The materials are all scanned in at our dock doors:

Polling Place Material Processing

- After getting scanned in items go to the Big Room to citizen boards.
- Here the “green” bags containing Signature Rosters, Poll Lists, Write-ins, Payroll, Boardworker Surveys, line up for processing.

OBSERVERS

MCTEC/EV Observers

- We have political party observers present in the Ballot Tabulation Center (BTC)

In this picture
you see
Election Day
radio operator
Kristi and BTC
Manager John
with
Republican
Observer &
County Chair
Rob Haney

Polling Place Observers

- We did have observers from the Department of Justice this election.
- We only got one phone call relating to a board which was confused between the distinction of political party observers (with limited access and inquiry) and federal observers.
- The Democratic, Green, & Republican Parties all authorized observers on their behalf.

A close-up photograph of the American flag, showing the blue field with white stars and the red and white stripes. The flag is draped, creating folds and shadows. A semi-transparent white rectangular box is overlaid on the bottom left portion of the image.

BALLOT STYLES

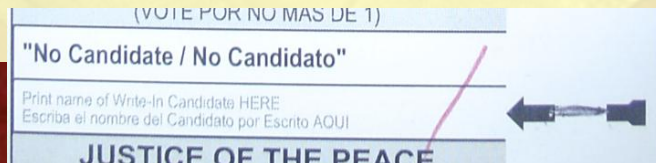

Write-Ins

- Every polling place had write-in candidates for this election due to the write-ins for United States Senator.

Write-Ins

- There were more than 65,000 write-in ballots cast (where the arrow was connected and the machine could out-stack the ballot).
- MOST were invalid:
 - Not official candidate.
 - Not a candidate in the party whose ballot it was on.
 - Blank, no name written in.

Process at the Polls

Door #3 is used when there is a power outage, ballot error, or machine malfunction. This serves as a secure ballot receptacle until normal functionality resumes. These ballots have not been tabulated.

Door #2 opens into the bin containing ballots that have been tabulated.

Door #1 contains ballots that the machine has detected a voted arrow in the write-in position.

Write-in Ballots

- The ballots dropped into Bin #1 have been tabulated for all races with the exception of those where the write-in arrow was completed.
- If the voter doesn't connect the arrow, and only writes in a name without voting for that person, it is not considered a write-in ballot.
- The races with write-ins are then still live ballots and need to be sequestered for manual review.

MARICOPA COUNTY ELECTIONS DEPARTMENT

Helen Purcell, COUNTY RECORDER

Karen Osborne, ELECTIONS DIRECTOR

Training

- ☐ 7) Finish Closing the Insight:
 - ☐ Using the little key, unlock and remove the ballots from door #1 (Write-in ballots). Check the ballot tub carefully to ensure that you do not leave any ballots inside. Place the ballots inside the Yellow Envelope.
 - ☐ Enter the total number of ballots with Write-ins from the top of Totals Tape #2: "Counted with Write-ins"
 - ☐ Record this same number on the Precinct Ballot Report.
 - ☐ Secure with a red and white official seal and sign across the seal onto the envelope. Place the Envelope in the green/yellow Canvas Bag.

When done correctly:

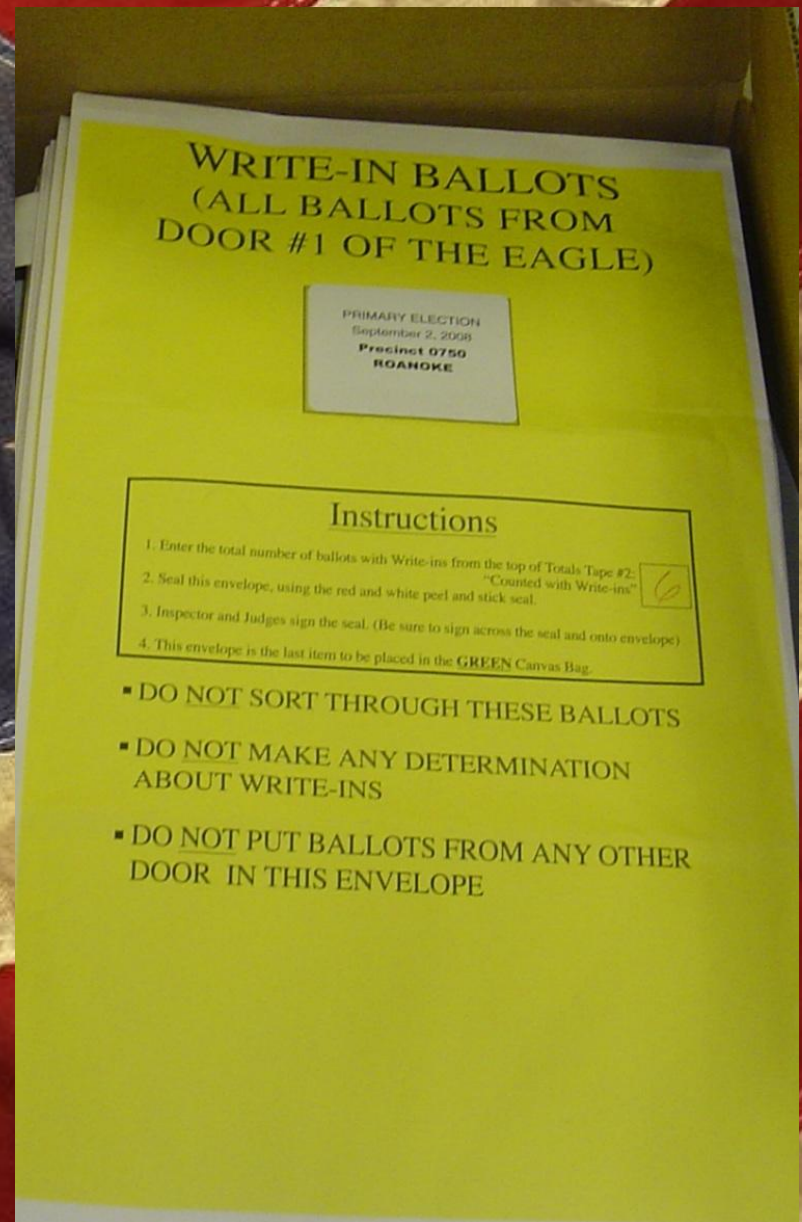

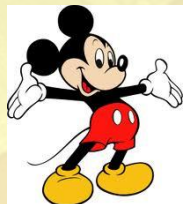

Key; Payroll, BW Surveys, Voter Surveys, Completed Voter Reg. Forms
Seal Bags; Toy Boxes; Clear Official Envelopes

Misread Ballot Envelopes; Write-In Envelopes Provisional Ballot Rosters; Poll Lists

- The Write-in envelope is removed from the “green” bag and sorted from the other contents.

- The Write-in Envelopes then go directly to the processing board.
- They match up the number of write-ins that the Insight totals tape reports to ensure that all ballots are present ***that have an arrow connected.***
- THIS NUMBER IS NOT THE ACTUAL NUMBER OF VOTES because many of them are not valid candidates.

When not done correctly...

- The Write-ins need to be located.
- Usually they are in one of two places:
 - They were placed with the tabulated ballots in the sealed Black Bag.
 - They were erroneously put in the Misread Envelope (ballots from Door #3).

But sometimes, they were not removed from the blue ballot tub on election night...

Pick-up

- When the warehouse staff go out to retrieve polling place equipment and materials they are trained to look for ballots in Door #1 (Write-ins).
- Drivers are provided with ballot envelopes and official seals to secure the ballots until they are returned to MCTEC.
- But sometimes the BWs have dumped all the unused ballots into the blue tub and the write-ins are no longer segregated...

“Unused” Ballots

- When the materials are returned to MCTEC all of the items are removed from the blue Insight tub.
- Re-usable items are put back into inventory.
- Ballots are palletized for recycle.
- But when the Write-ins are comingled with the unused ballots they must be found.
- **ALL BALLOTS ARE LOCATED FOR TALLY!!**

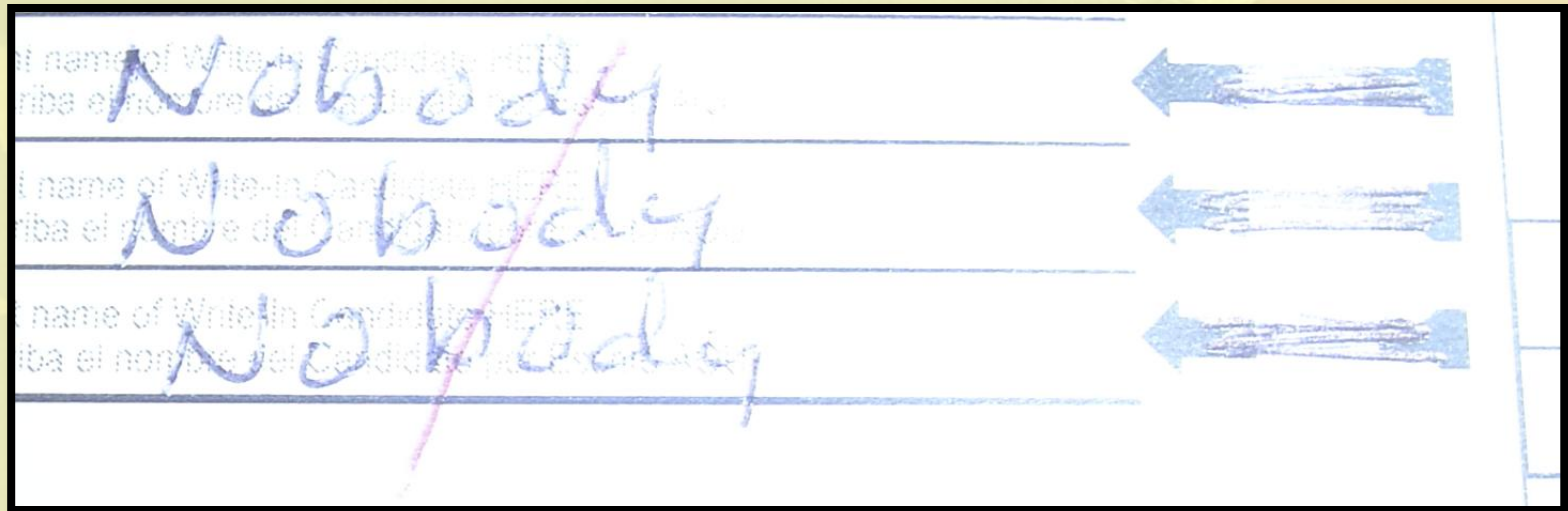

That means all hands on deck

All ballots are gone through until they are found:

Because we never know if one will be a valid vote, or for just another “nobody”:

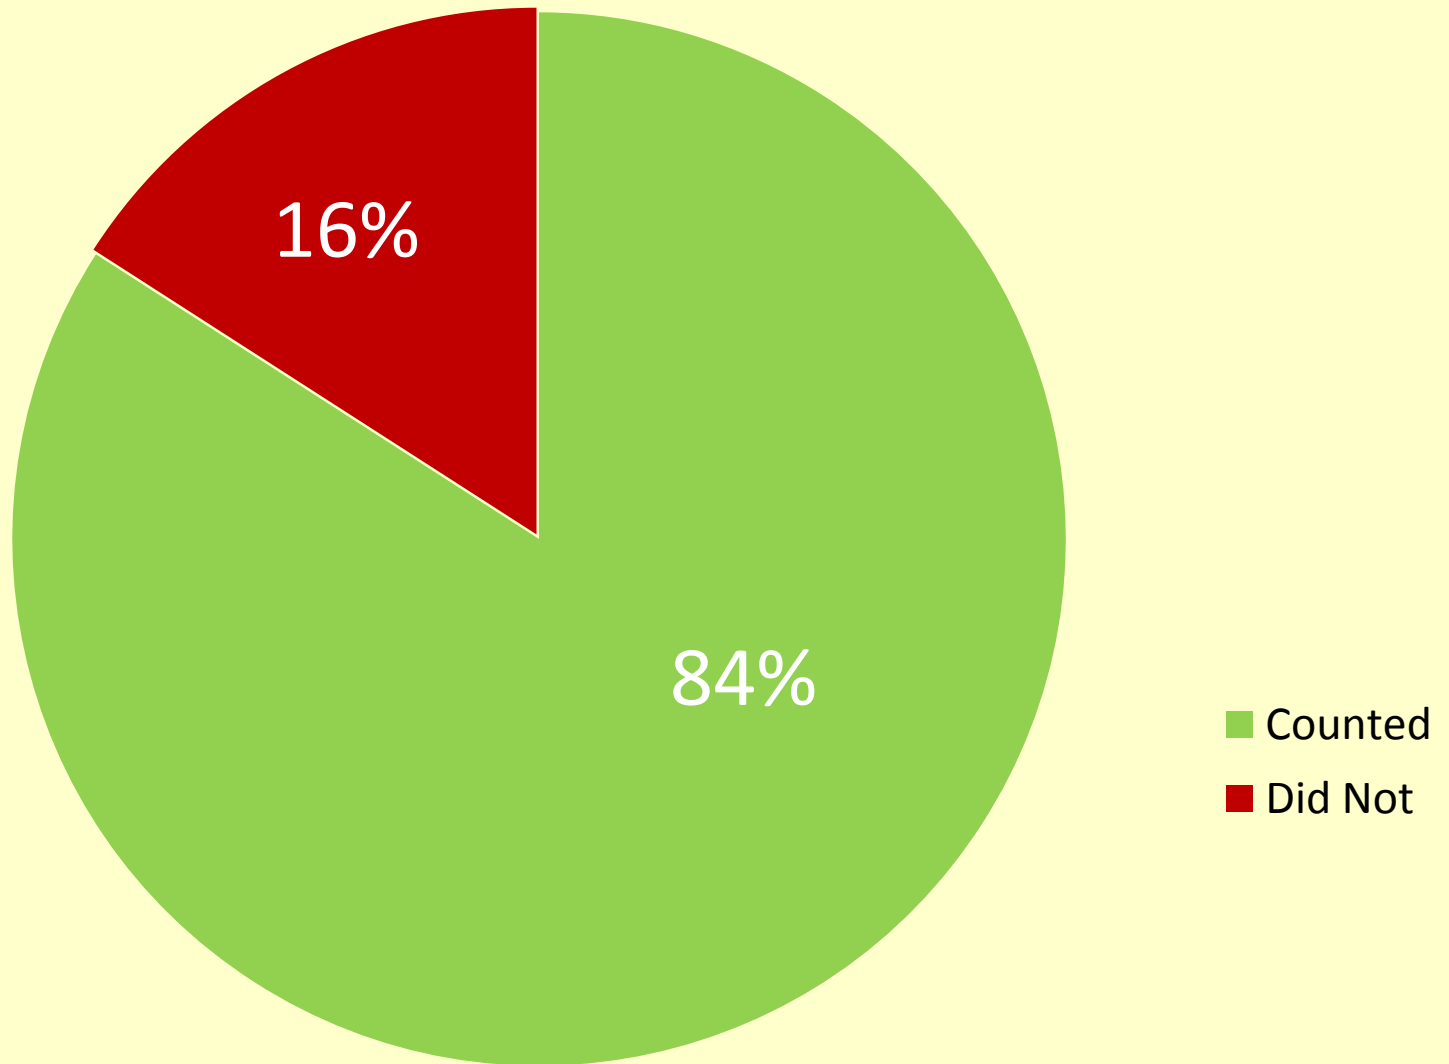

Of the **90,433** arrows completed only **1738** had votes for valid write-in candidates!!

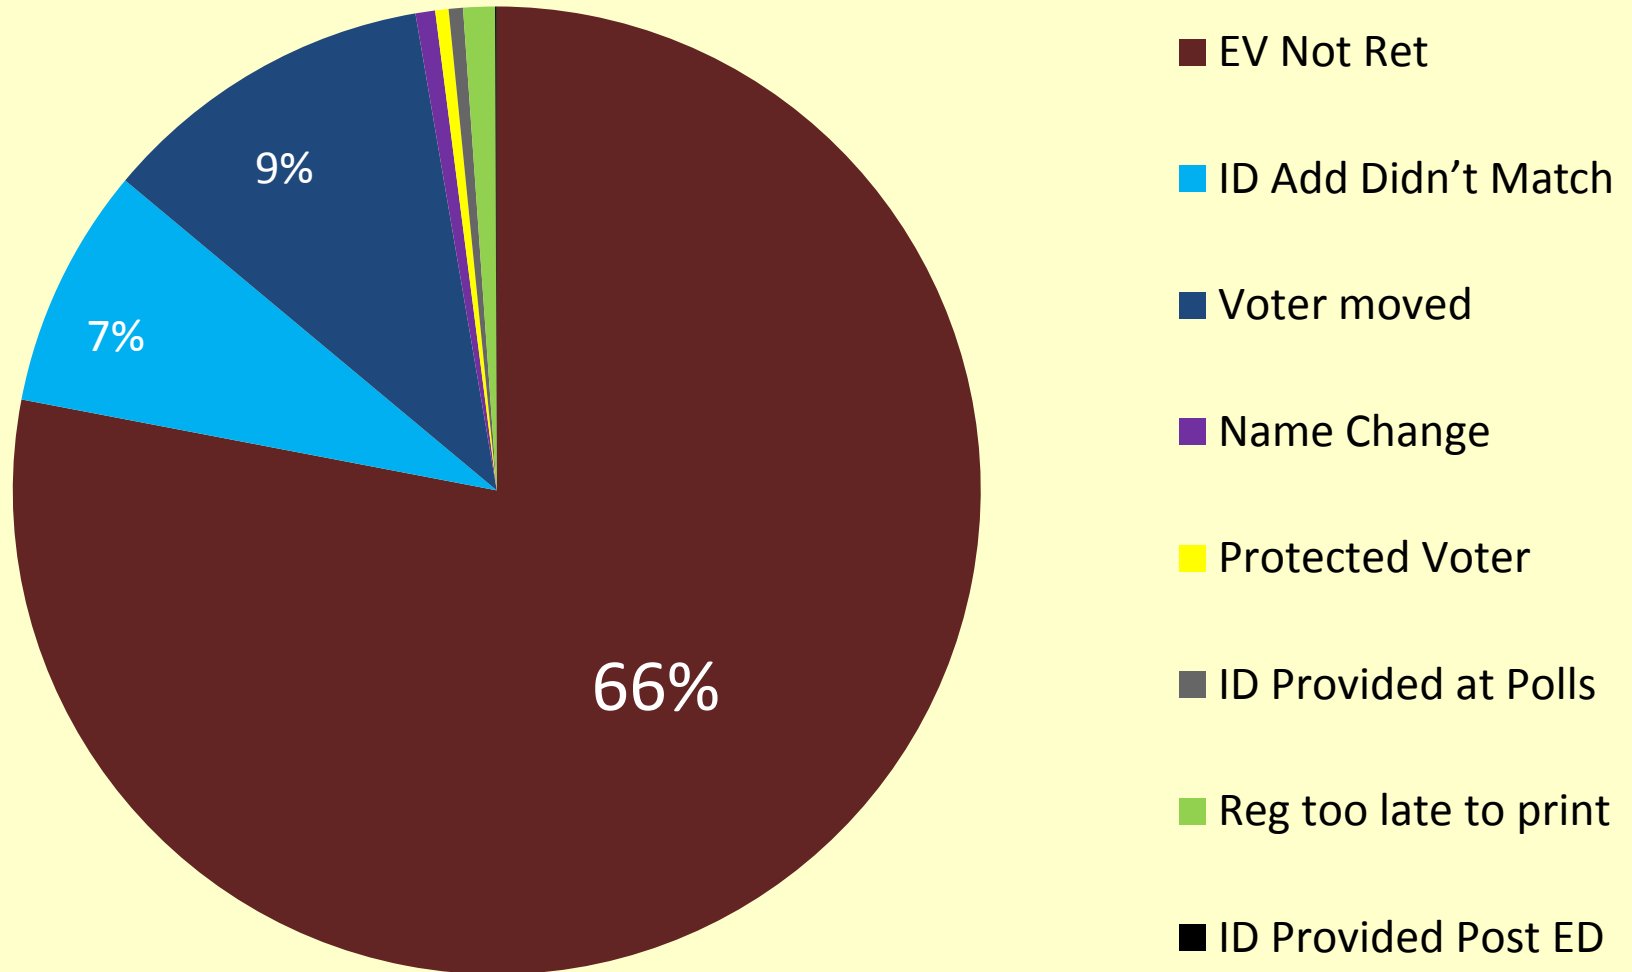

PROVISIONALS

Total Provisionals Cast:

Comparison of # of Provisional which counted:

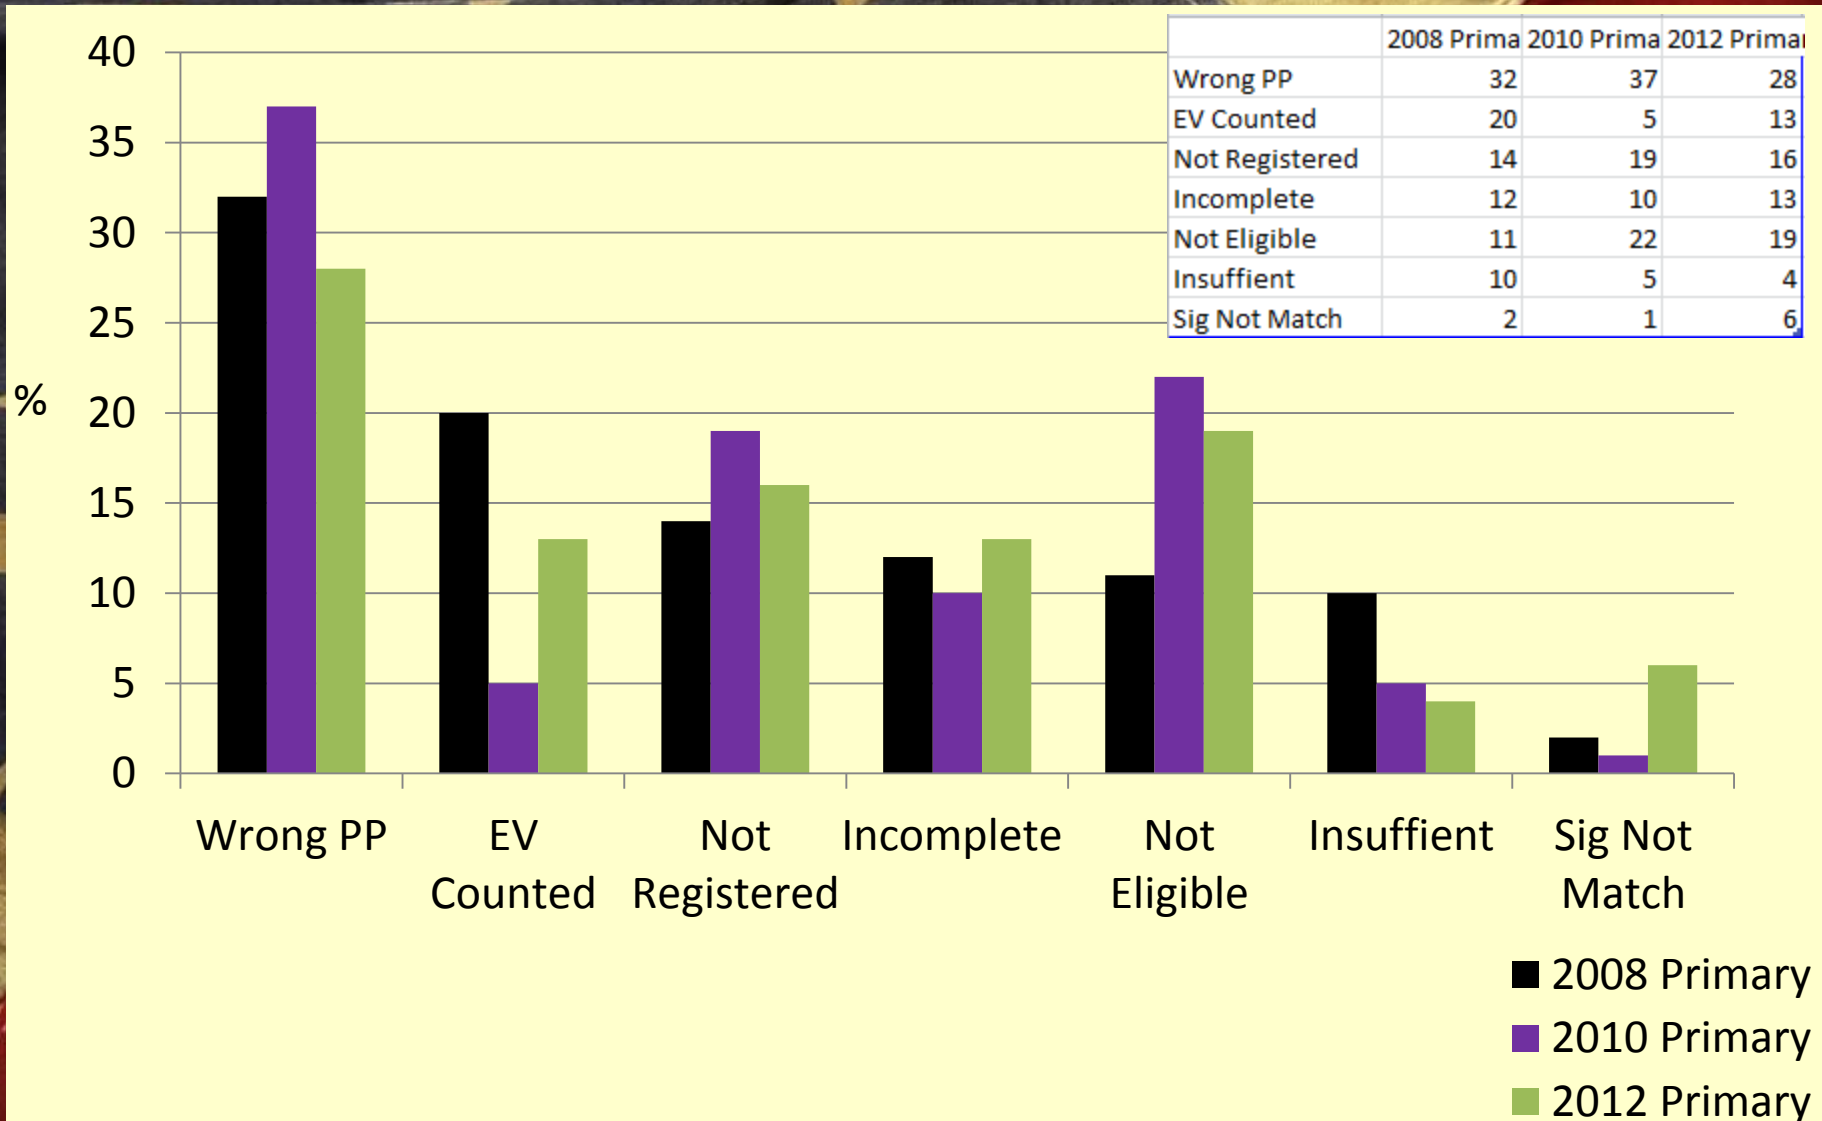

Comparison of Provisional % which counted:

Comparison of # of Provisionals which did not count:

Comparison of % of all Provisionals which did not count:

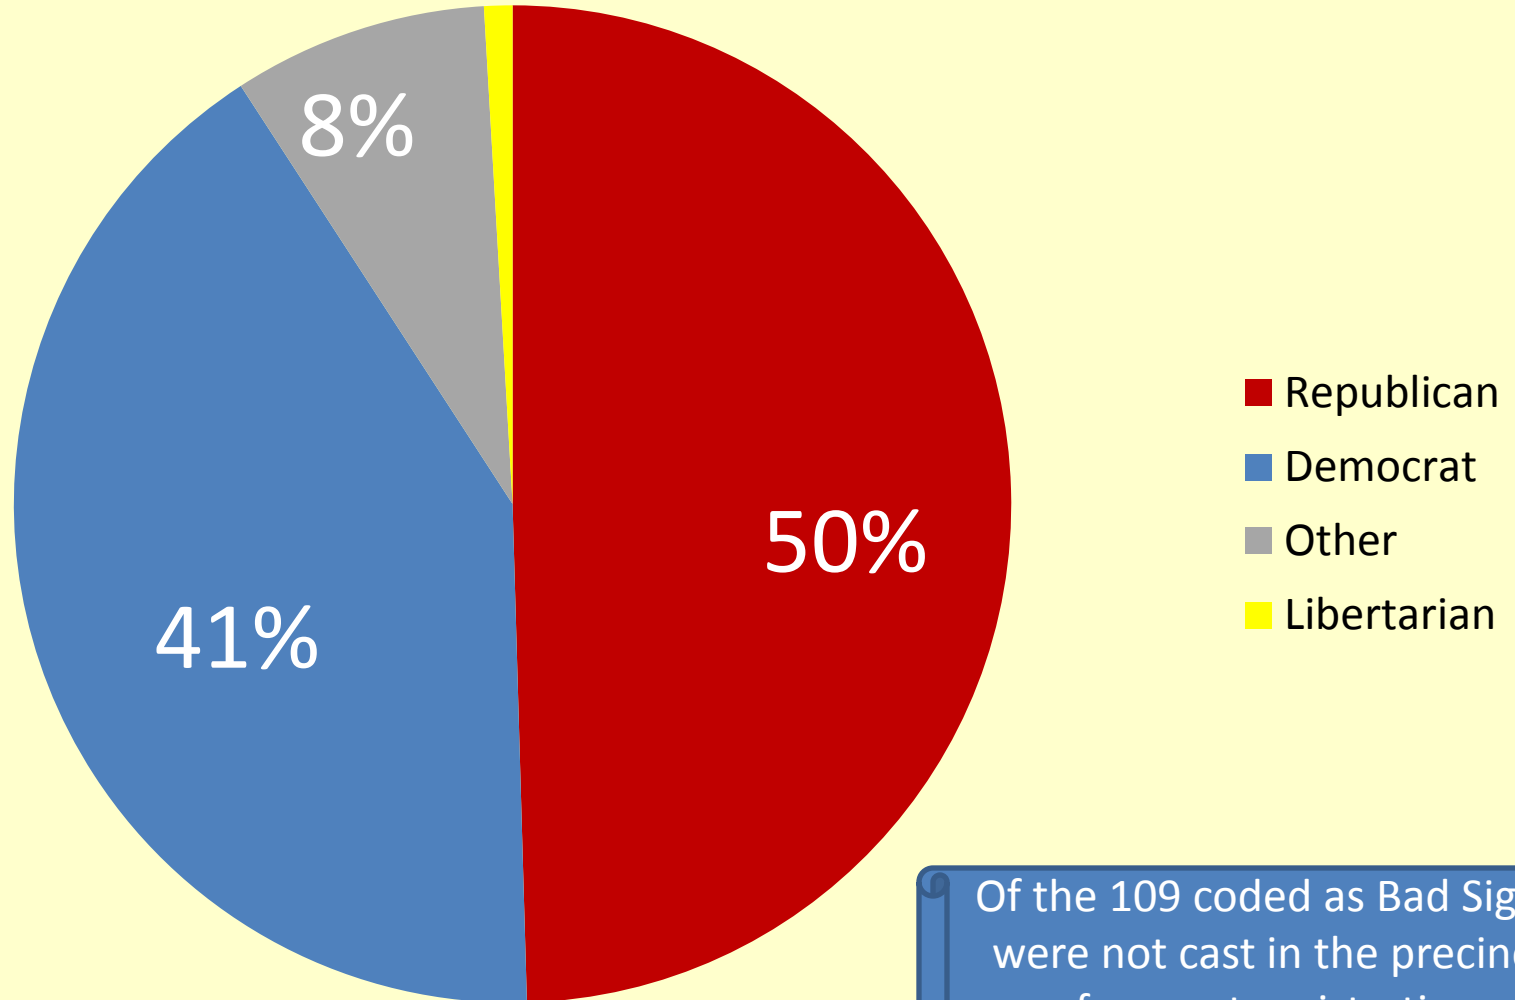

Signature Verification

- One important aspect of benchmarking is to detect anomalies or procedural concerns.
- There were 109 coded Bad Signatures this Primary Election which is almost triple what we usually see.
- Why??
- We looked at those records for trends in Party, Age of Voter, Date of Registration, Registration Source, where the ballots were cast, and who on our staff dispositioned the provisional.

Precincts?

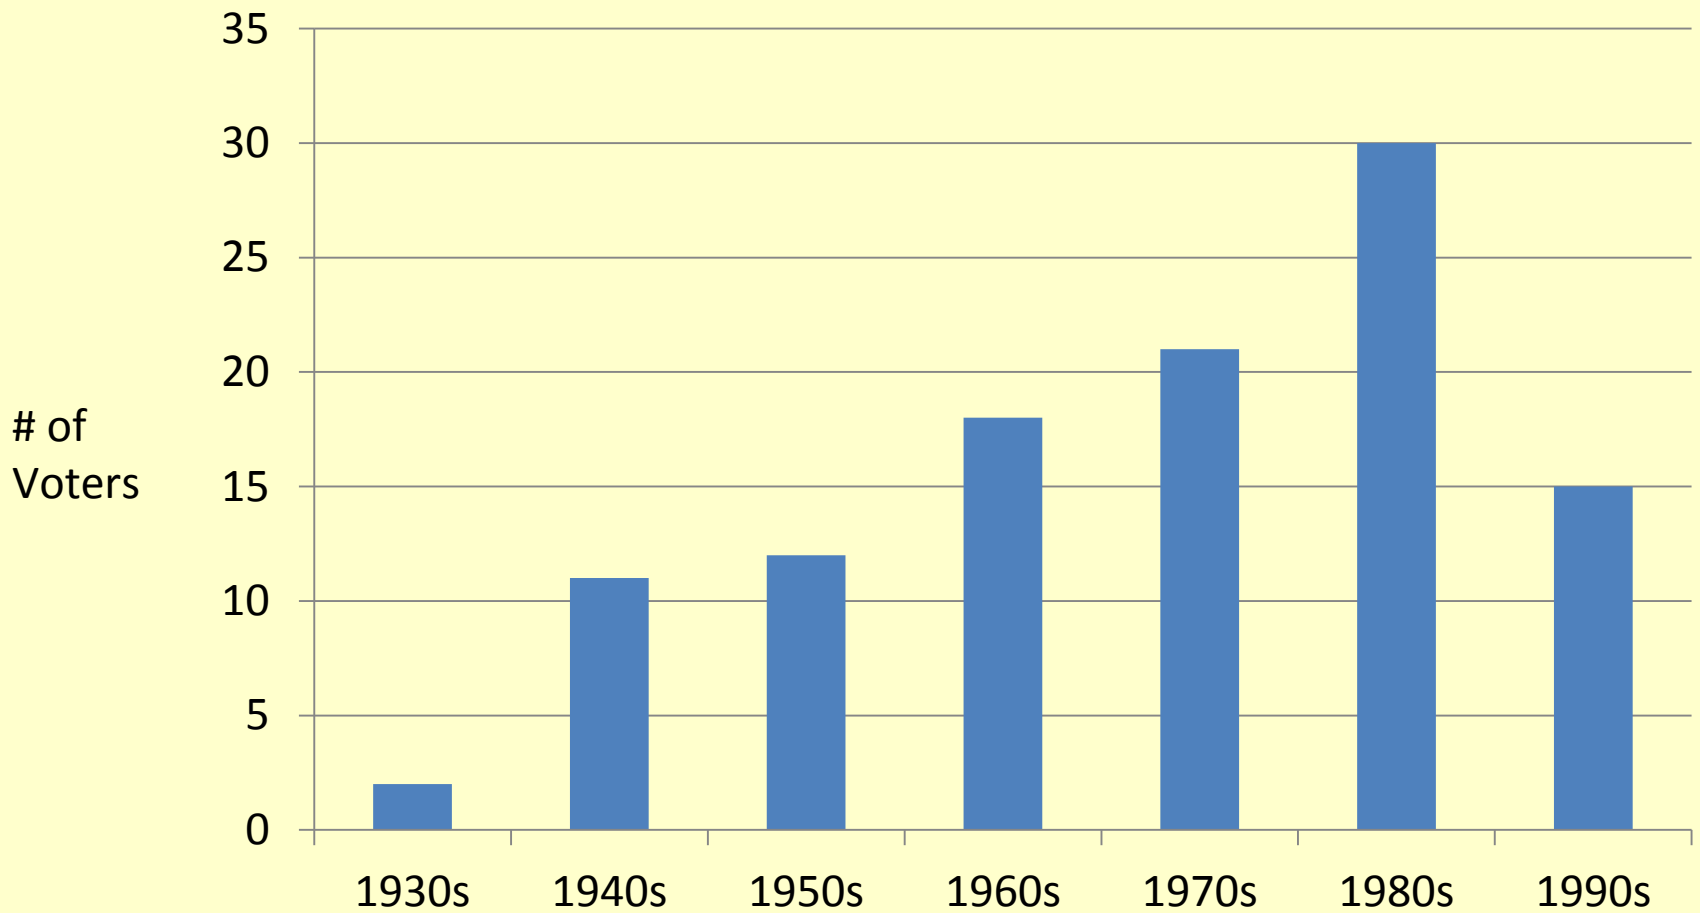

- The 109 Bad Signatures are spread out over a total of 104 precincts, they did not appear in a concentrated area.
- There were 5 precincts that had 2, there were none with more than 2.

Party Affiliation of Bad Signatures

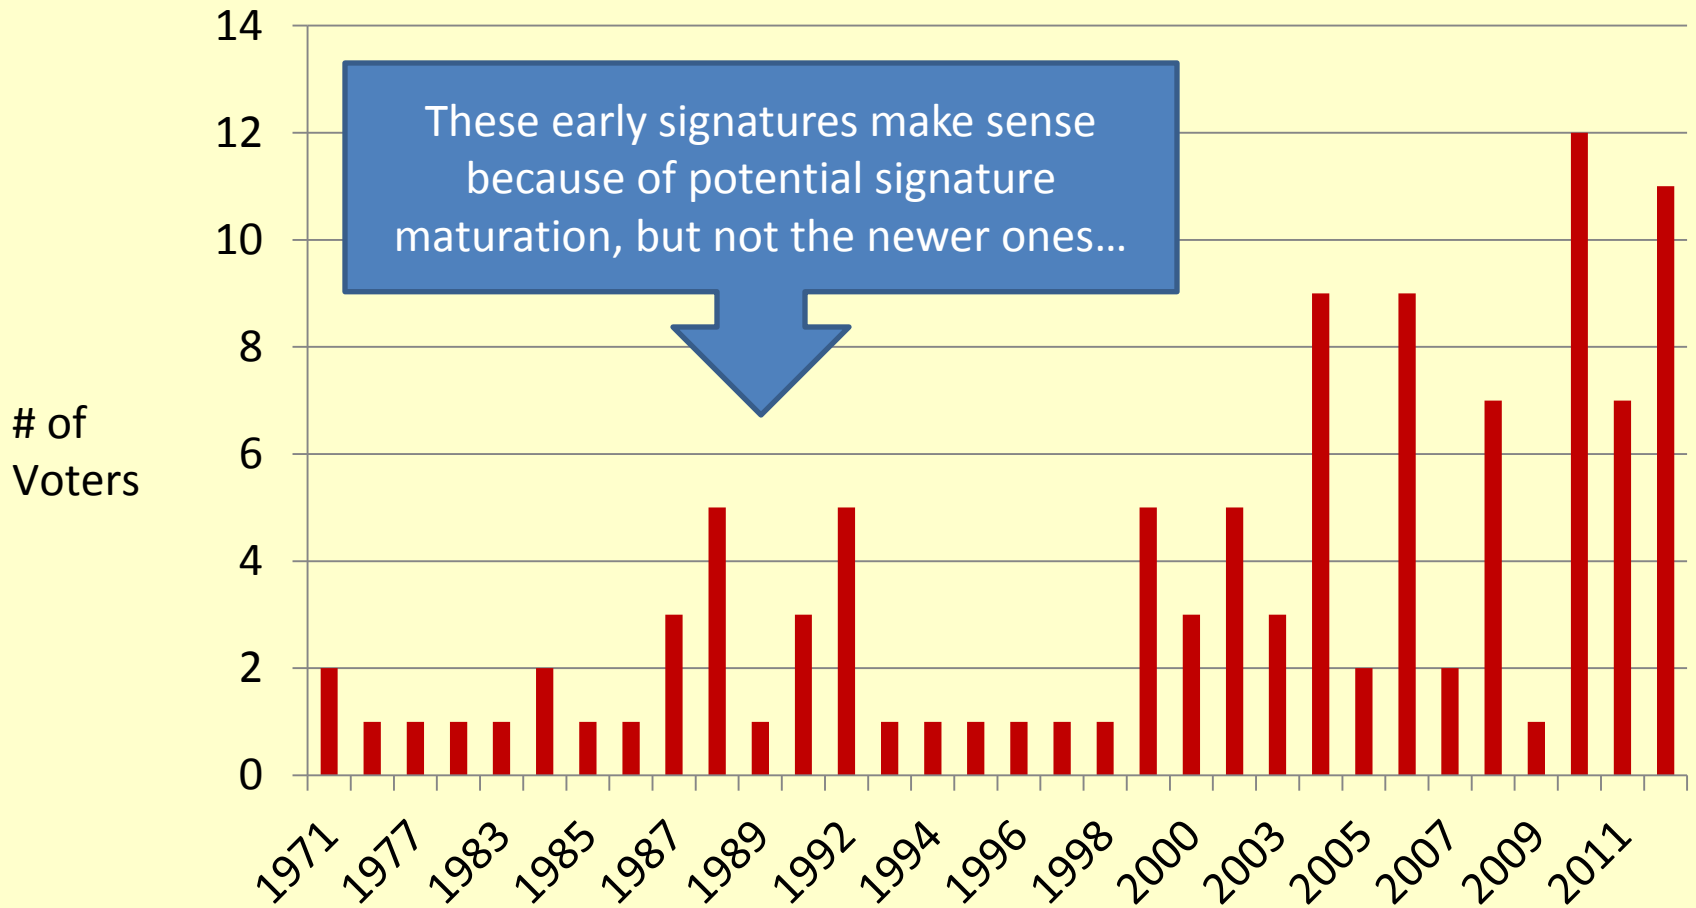

Of the 109 coded as Bad Sig, 5 were not cast in the precinct of current registration.

Decade of Birth of Voters with Bad Signatures

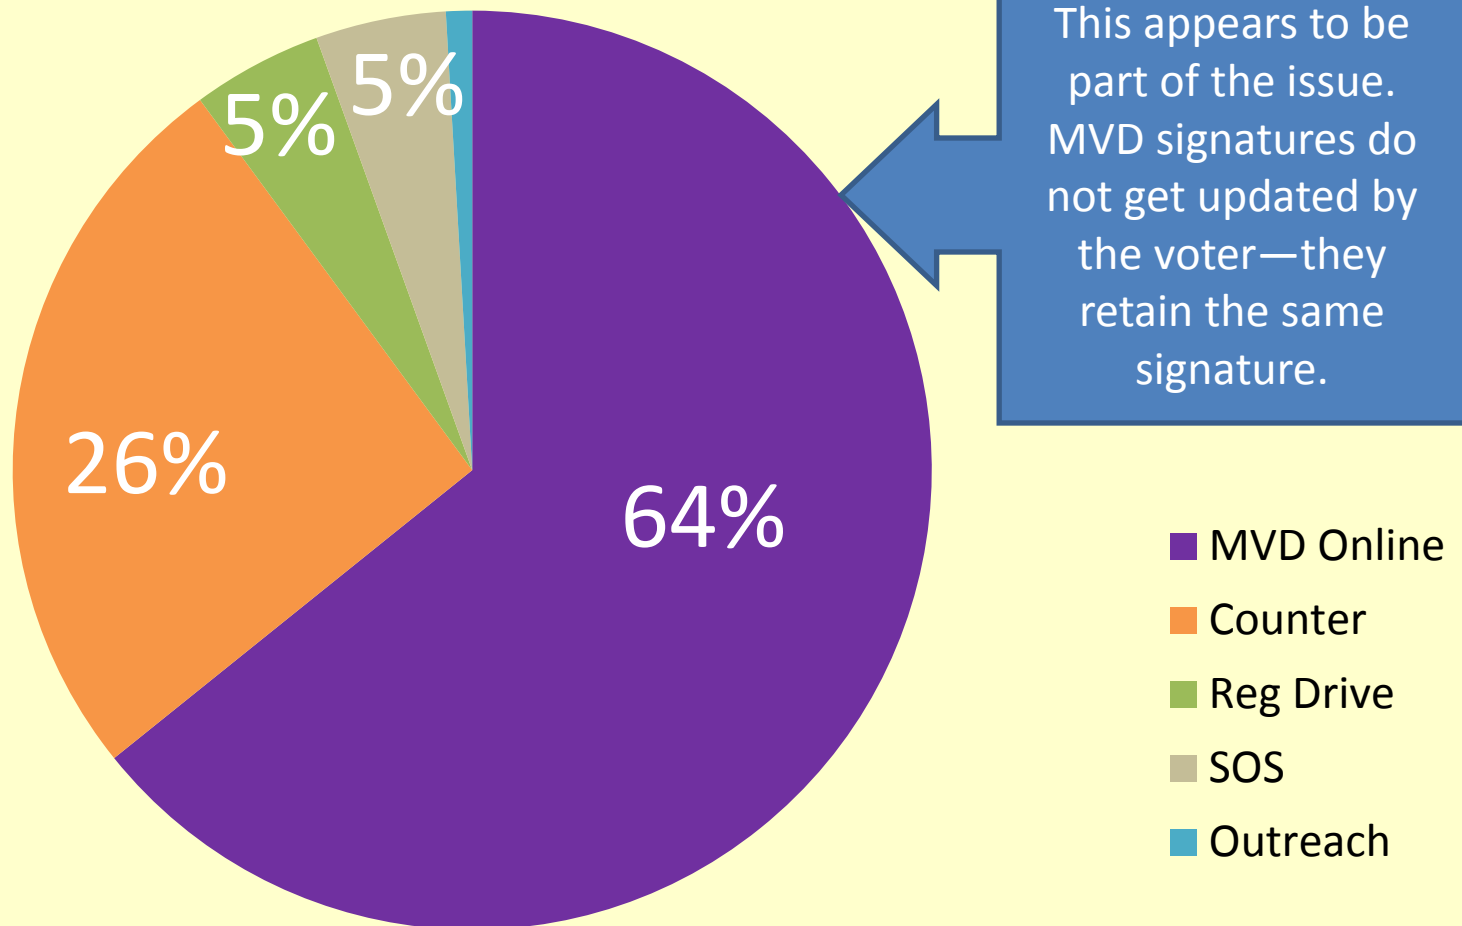

Date of Registration of Voters with Bad Signatures

And the pre-2000 forms only make up 20 of the 109 in question.

Why so many Bad Sigs?

- The recount in Maricopa yielded the ***EXACT*** same count.

And that had a hand-count audit too!

MARICOPA COUNTY ELECTIONS DEPARTMENT

Additional Comments:

For some, the Primary was “IT”:

- Some races were determined in the Primary because the candidates will not face opposition in the General.

Scottsdale primary election results reported

Scottsdale voters took to the polls Tuesday, Aug. 28 where it appears Scottsdale Mayor Jim Lane was elected to his second consecutive term. (Independent Newsmedia/Terrance Thornton)

For others it's on to the General!
